On July 2, 2003, I faxed my response to your Detailed Action report with the mailing 06/03/2003. My response contained my selection of species for prosecution. On viewing the USPTO internet site to check the status of the respective patent application I noticed that no acknowledgement was recorded regarding my correspondence. My fax was sent to the fax number referred to in the Detailed Action report, that is, 703-305-7687. In the event that my fax has been misplaced or was not received correctly, I am attaching the correspondence that I faxed on July 2, 2003.

Yours sincerely,

Thank you for your Detailed Action report with the mailing date 06/03/2003. In response to the requirement that a species be selected, the species selected for prosecution is the one shown in Figure 8.

The claims readable on the elected species are claims 4, 5 and 6.

This election is made with traverse.

With respect to your statement that no claims are generic, I thought that claim 1 could have been regarded as generic.

Yours sincerely,

T. Kusic
